Flight Test Pilots:

Flight Test Pilots assure that aircraft meet prescribed standards. These pilots conduct approval flight tests of new or substantially modified aircraft, including the assessment of handling characteristics, performance, and systems functionality. These tests involve a substantial degree of hazard requiring a high degree of pilot skill and experience. Flight Test pilots will also validate flight manuals, supervise designated engineering reviewers and provide oversight on production flight test programs.

Qualification Requirements:

All positions require a current commercial pilot certificate with airplane single and multiengine land and instrument ratings or an airline transport pilot (ATP) certificate. For positions requiring helicopter experience, applicants must hold a commercial pilot certificate with helicopter and helicopter instrument ratings or an ATP with helicopter rating. For additional qualification requirements, see Vacancy Announcement No. FAA-AIR-99-FTP-25910M at the Web site listed below.

Hiring Avenues:

Applications are accepted continuously under Vacancy Announcement No. FAA-AIR-99-FTP-25910M on the FAA job Web site at http://jobs.faa.gov .

The FAA is an equal opportunity employer and makes reasonable accommodation for applicants with disabilities.
